I'm a UX/UI designer who codes.
I ♥ designing **simple interfaces** for **useful products**.

Skills

Design

Entire process: concept, interaction design and visual design.

Product

Experienced in defining products, prioritizing features, and shipping.

Coding

I can write my own HTML/CSS/jQuery.

Collaboration

Fun to work with. Developers will be pleased.

Work Experience

06/2014–10/2014	Startup co-founder and designer at Plint — a business "matchmaking" app for events and conferences. **Read my case study**
05/2012–Now	Volunteer UX/UI Designer on a leading open data project (פרויקט פנסיה פתוחה בסדנא לידע ציבורי) **Read my case study**
10/2011–02/2014	UX Designer at EverythingMe. **Read my case study**

Education

2008–2010	2008–2010: BA in Political Science from the Herzliya Interdisciplinary Center. On the Dean's list (top 10 of class) for all 3 years; graduated *summa cum laude*.
Design education	I am mostly self-taught through books (currently reading: The Elements of Typographic Style) and online courses.

Interests & Hobbies

Product design, political and military history, gaming, 80s new wave and synthpop.
